VisionExtend

High-end Notebook case for Notebooks up to 17"

The high-end Notebook case VisionExtend combines 15 years of experience, competence and know-how developing Notebook cases for the highest of demands.
The effective, yet light-weight safety padding made of high-density foam protects the Notebook from damages from all sides. Additional protection for all angles is provided by strips with patented „Permanent Air Cells" (PAC) and a reinforced frame. With this, the Notebook and your data are perfectly safe in case of a drop. The Notebook compartment is lockable and offers a Notebook strap for securing the Notebook. Cell phone, pens, business cards and documents are stowed away within easy reach in the fasteners provided in the front pocket. The power supply unit finds room in the mesh cable pouch. Additional storage room for mobile equipment is offered by the integrated workstation with its retractable CD compartment on the case inside. More documents can be stowed in two document compartments on the back of the case - one of them zippered.
The high-quality and especially robust outer material „Ballistic Nylon " underlines the elegant impression of this case together with the pleasantly soft and retractable carry handle. The case floor is additionally protected from dirt and damage by continuous synthetic coating on the outside. The detachable, padded shoulder strap and the trolley fastening strap make for wearing comfort.

Art. No.: N 16348 N
Color: Black
Dimensions: 475 x 365 x 160 mm/ 18.7 x 14.4 x 6.3 inches
Weight: 2,2 kg/ 10.6 pd.
